Subject: RE: TPC is asking for the tabular ASPECT Data?

We usually have these tables in our written report.

Run	Date	Time (UTC)	Chemical	Max Concentration ppm
1	27 Nov 2019	1347	Test	Test
2		1350	ND	None
3		1407	ND	None
4		1414	ND	None
5		1426	ND	None
6		1429	ND	None
7		1441	ND	None
8		1449	ND	None
9		1500	ND	None
10		1511	ND	None
11		1515	ND	None
12		1524	ND	None
Note: ND = No Detections				

I can add a column for a descriptive location (e.g. 100m downwind or along plume).

Does that work?

Subject: Re: TPC is asking for the tabular ASPECT Data?

That looks good the only possible addition would be location data

Maybe. I may need some clarification.

Would we like a tabular summary of chemical results for butadiene?

Column headings something to the effect of:

Date Flight Time Butadiene conc.

Or do we have something else in mind?

Let me know if that works and when you need it by.

Ahmed

I'm sorry I don't know what that is. I didn't do that for ITC.
